SINCLAIR,QL,QDOS,PSION,Thor,Qtop...   Do you remember???

On January 12th the SINCLAIR QL professional computer is celebrating its 18th birthday. In behalf of the whole QL-community we celebrate this event with the presentation of a new QL-product, the QL/E-Distribution. QDOS, the genius operating-system of the QLs, has been under constant development the last 18 years and present itself today as being "virtually" runable on the major available computer systems like Windows, Unix, DOS, MacOS, etc.

Interested? Let your PC (doesn't matter if it runs under Windows or Linux) breath QL-air on the fly! Enjoy „Retro-Computing" live on your PC and dream about the good old days when computers where controlled by humans!

1. Fetch Informations: the QL-community in the internet!
On my homepage http://mypage.bluewin.ch/QLvsJaguar/ you'll find lots of interesting information about the SINCLAIR QL und its history. In addition you'll find selected links to the best QL-sites and the whole QL-community in the internets.

2. Use QL-Software: Run a virtual QL on PC, Mac, Amiga, ST -> in an easy way with coWo's QL/E-Distribution
coWo's QL/E-Distribution consist of a CD-R with 700MB of programs, data and information:

- ✎ revised „QL-PD/CD-R" public domain QL-software collection from Gerhard Plavec > 600MB (in QXL.WIN-format, the QL-filesystem for PCs harddiscs und CD-ROMs)
- ✎ pre-configured „QL/E BOOT-Partition" with Qtop/E Desktop from coWo Electronic > 30 MB (also in QXL.WIN-format)
- ✎ recent demo version of the commercial QL-Emulators „QPC-II" for Windows-PC's from Marcel Kilgus (fully usable, but saving data is disabled). In addition you'll find all other public-domain and commercial QL-Emulators for PC (DOS, Windows, Unix, Linux), Mac, Amiga and ST
- ✎ additional information around Sinclair Computer, especially the QL, the CST Thor computers, the Z88, etc...

The QL/E CD-R is customized as „Autorun-CD" for Windows which means it is directly runable. On other HOST-systems it needs some configuration.

lots of software and information about the QL on the QL/E-Distribution

directly runable under Windows, the QL-Emulator QPC-II in windowed mode and original QL-resolution

„How to order":
Order today your personal QL/E-Distribution als CD-R for a fee of only 20 €, 30 SFR or 10£ incl. p&p ar:

Urs Koenig
Muensterstrasse 4
CH-6210 Sursee (Switzerland)
